

## Game Store UI Screenshots

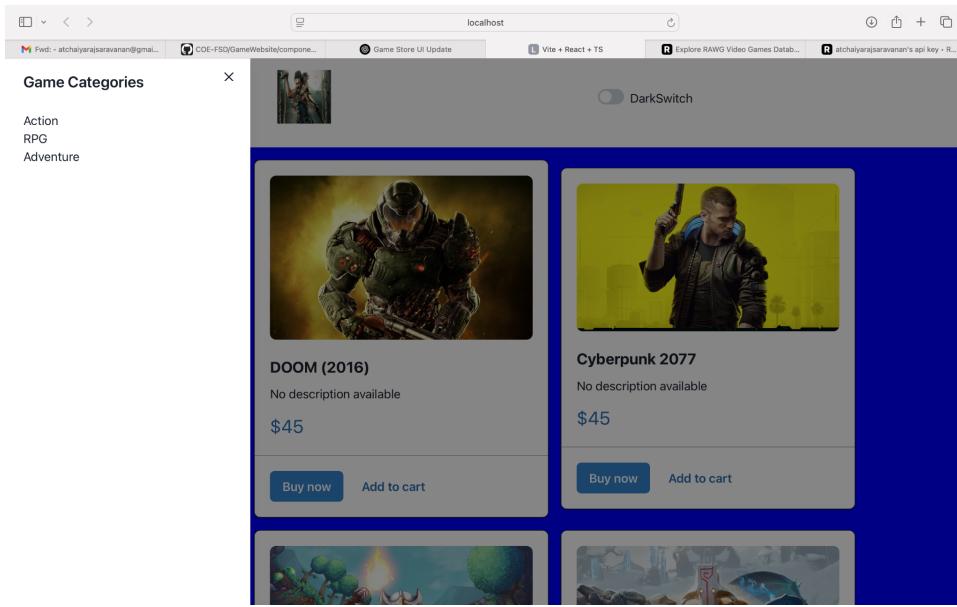

### Screenshot 1

This screenshot captures the pagination feature at the bottom, allowing users to navigate between different pages of games.

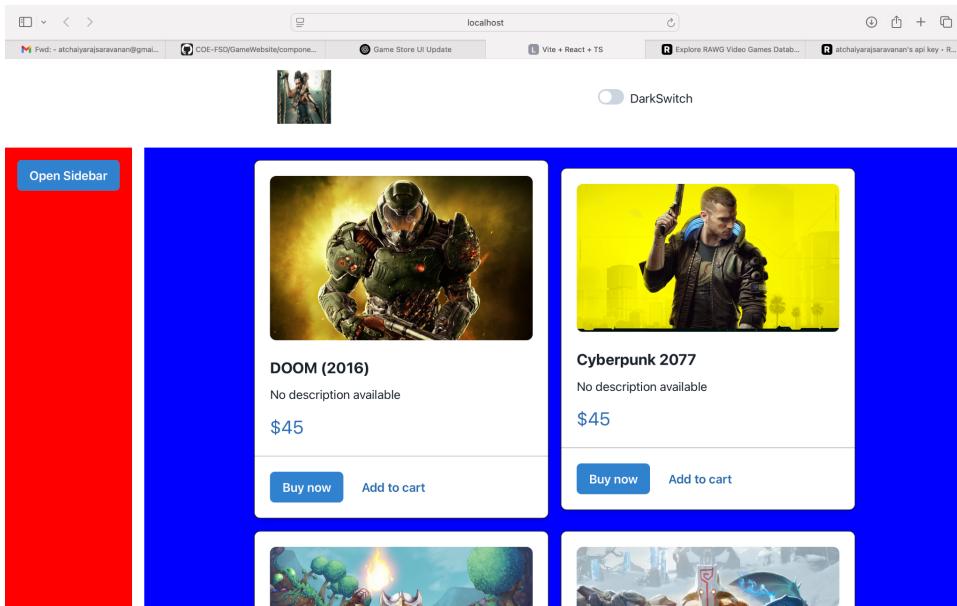

### Screenshot 2

In this screenshot, the sidebar menu is open, showing game categories such as Action, RPG, and Adventure.

Screenshot 3

This screenshot shows the game store UI with a light theme enabled. The background has changed to white, providing a different visual appearance.

Screenshot 4

This screenshot demonstrates the UI after enabling dark mode. The header, background, and game cards change to a darker theme, while the 'DarkSwitch' toggle is active.
